WPL Interior Design

The partners at WPL Interior Design have been designing luxury interiors for homes and businesses for more than 35 years. They are based in Philadelphia but their work can be seen around the world.

Their eye for style is backed by years of formal design training and, over the years, they have undertaken every type of interior design project imaginable. They insist that their work reflect their clients' needs, personalities and lifestyle—not their own. Most of their clients continue to work with them for years to come.

Walter Peterson founded his eponymous interior design firm in 1982. When his partners Steven Weixler and Marcello Luzi joined the firm, it eventually became known as Weixler, Peterson and Luzi. Today the firm is known as WPL Interior Design, to honor the three original partners and to better reflect what they do. The firm specializes in high-end residential and commercial work, nationally and internationally.

Walter, a detail-oriented connoisseur of antiques, decorative arts, textiles and musical composition, has always offered thoughtful warmth and elegance to every job. Steven Weixler, who joined Peterson in 1983, brought expertise in architecture, historic restoration, electronics and lighting technology to the firm. Marcello Luzi, who came on board in 1988 as a draftsman with a background in finance, proved to be a visionary businessman with exceptional design and communication skills.

Together the three became a formidable trio, integrating traditions of the past with an eye on the future, building on each other's strengths while speaking all of the languages (technical and otherwise) necessary to get complex jobs done from start to finish, from Philadelphia to Bermuda to Italy and back again.

Through it all, client satisfaction remains paramount, bringing repeat business and recognition. WPL is one of the few Philadelphia-based Interior Design firms to be recognized in *Architectural Digest*. They have been granted ASID and Sub-Zero awards multiple times and have been published in six books and countless publications, among them *Design Times* and *Florida Design*.
